**AFCEE UPDATE - Mr Charlie Rice - Ongoing Projects****Ongoing Projects:**

- Removal of low-level radioactive waste (DO12) [Metcalf and Eddy]—Received TNRCC approval to close the soils at Risk Reduction Standard 1. The groundwater closure is pending the results of the background study. The final report is due 15 Nov 96.
- Fire Training Area #2 Assessment—AFCEE is developing a closure package to submit to the TNRCC. The schedule for delivery was given to Alan Posnick (Feb 97).
- Aerospace Museum Site and Grounds Maintenance Yard—AFCEE is developing a risk reduction standard closure package to submit in Feb 97.
- 11 UST Removal, 11 UST Upgrades [Jacobs Engineering Group]—All USTs have been removed or upgraded. The removal of soils at the golf course is complete. Analytical data QA/QC is complete. Draft final reports will be completed when the background study results are received.
- Base Service Station [IT Corporation]—Field work is almost complete. A few more samples need to be taken. Draft technical reports are being written.
- Investigate Family Campground and Fuel Pipeline Study [The Environmental Company]—Field work complete. The study investigated segments of the jet fuel pipeline that cross the unnamed stream and run beside the Trinity River.
- Bureau of Prisons/Background Study [Jacobs Engineering Group]—Final work plans have been completed and distributed. The field work is in progress. The draft reports are expected at the end of June. The bulk of this project is the background study.
- Remedial Action of Unnamed Stream [Geomarine]—A pre-construction meeting is scheduled for the beginning of December. The field work will begin after that. An RFI has already been performed. Sampling will occur to determine if further cleanup is needed or if it can be closed.
- RFI and Corrective Measures Work Plan for the Sanitary Sewer [IT Corporation]—Draft work plans have been developed and distributed.
- RFI and Corrective Measures Work Plan for the Weapons Storage Area [The Environmental Company]—This study will conduct a limited RFI to close out the remaining SWMU (59) and the Weapons Storage Area. If contamination is present, it will be remediated for transfer. Waiting for draft work plans.
- Landfill #4, Landfill #8, Landfill #5, Waste Burial Area [Hydrogeologic]—This study will utilize existing RI data and fill in data gaps for LF-04, LF-05, and the Waste Burial Area by performing a limited RFI. A limited RFI will be conducted for LF-08. Waiting for draft work plans.
- Community Relations [Informatics Corp]—A draft Community Relations Plan is under review.
